

HALDER HARDWARE MART

Lifting and Rigging Materials

The company is engaged in manufacturing trading and supplying a wide assortment of lifting and rigging materials such as turnbuckle, chain pulley block, d shackle, wire rope pulley, ratchet lever hoist, chain sling, wire rope clamp, wire rope sling and many more.

The whole product range offered by us is largely acknowledged among customers for their remarkable features as well as quality that is just because, we develop them using optimum quality raw material. Besides, our products are developed under the strict guidelines and supervision of experts, who assure their excellence as well as reliability. The material used by us is sourced from industry's most reputed and authorized vendors, whom selection have been made by us after conducting rigorous market research. Therefore, our products are demanded for their matchless features, which include corrosion resistance, smooth finish, dimensional accuracy, sturdiness, less maintenance, optimum performance and many others. Apart from this, excellence of our entire product range is checked on well-defined quality control parameters of industry, just because of our assurance to supply error free range to our respectable clientele.

Led by our company's honorable proprietor Mr. Jahar Halder, we have earned successfully a desirable status in industry. His sharp business acumen, ethical working approach, foresightedness and outstanding administrative quality has helped us in serving to the rising needs of clients efficiently and garnered their large support.
